

Service place categories and line categories of MÁV Zrt.

Line category data in accordance with column "Line number according to Network Statement" next to station category data of the table are given direction-based. I.e. line category values related to track sections next to service places indicated in the table are valid up to the service location indicated in the following line of the table.

| Line number according to NS | IT line number | Code of the service place | Name of the service place | Chargeable kilometres | Station category of origin/destination stations for passenger trains | Station category of origin/destination/intermediate stations of freight trains | Line category for passenger trains | Line category for freight trains | Start/end of the train path | Available for request stop |
