

Conditions for the use of public loading tracks and loading places belonging to these loading tracks owned by MÁV Zrt

Railway Undertaking may apply for access to loading sidings and to loading places belonging to these sidings by a simple indication of this request without applying for a train path.

In the indication Railway Undertaking must provide the following information in compliance with rules comprised by the Network Statement in point 4.3:

- service place concerned, within this, name of the loading siding
- start of the time spam for ensuring loading place
- number of wagons to be loaded/unloaded
- length of the loading unit (in m)
- identifier of the referred train path (its provision is optional)

MÁV Zrt Infrastructure Operation shall ensure access to public loading sidings and loading places belonging to these siding in accordance with the allocated capacity.

MÁV Zrt Infrastructure Operation shall publish the list and technical parameters of public loading sidings and loading places belonging to these sidings on its home page.

Loading and unloading of railway vehicles drawn to loading track must start at the beginning of the time-spam for ensuring loading place indicated in the allocation and must finish by the end of the time-spam for ensuring loading place indicated in the allocation.

Duration of ensuring loading place allocated must not exceed the maximum length of time defined by this annex for loading/unloading.

Time-spam of ensuring loading place is the maximum interval defined for unloading/loading of railway wagons in the allocation that also includes technology time of drawing of railway wagons to loading place and drawing them out of loading place.

Maximum length of loading times for loading/unloading of railway vehicles that MÁV Zrt. Infrastructure Operation ensures, are as follows:

Vehicle (number of vehicle)	Maximum time-spam of ensuring loading place (hour)
1-15 vehicles	24
16-30 vehicles	48
Every furtherer up to 15 vehicles	+24
For arrived/departed vehicles of serving trains (Kt)	120

Beginning of the time-spam of ensuring loading place is the time defined for access to tracks designated to loading and to loading places belonging to these tracks.

Network Statement 2013/2014 amended by M1

Time-spam of ensuring of loading place must be interrupted on loading places without lighting based on the Calendar for lighting and must also be interrupted on holidays and bank holidays.

Lighting calendar for the operation time of lams providing space lighting
