Effective: from 17 January 2024
Applicable: from 15 December 2024

<u>TEXT</u>

1. 4.3.2.2 Capacity allocation rules for major track closures

The following modification was made:

(9) The infrastructure manager shall provide the following information for the consultations:

   a) the planned start, end and, as soon as available, hours of the start and end of the track closure,
   b) the section of line affected by the track closure; and
   c) the capacity of the lines which may be used as detours.

VPE Publishes the contents of points a-c in the Network Statement and keeps them up to date based on data provided by infrastructure managers.

2. 4.5.2 Handling of requests which not belong to the annual working timetable, including short term requests as well

The following modification was made:

Final date for judgement of annual late requests that were not taken into account during the construction of annual working timetable shall be the last working day of the second week prior to the start of the timetable period (24~~9~~ November 202~~3~~4). When finalising the working timetable, the previously published draft will be updated by VPE on its website one week after the finalisation of the annual and the annual late requests.

3. 6.2.1 The obligation of applying railway operational instructions

The following modification was made:

From instructions listed above, transport authority approves instructions listed under a) - h). ~~Entering into force, p~~Publication or modification of these instructions are communicated by MÁV and GYSEV towards VPE and the Railway Undertakings, and any information in line with these instructions must be placed on their websites, too.

4. 7.2.1 Operators of the non-Infrastructure Manager operated service facilities

The following modification was made:

~~BOBO Kft.~~
