1 Introduction

Act CLXXXIII of 2005 on Railway Transport (hereafter Railway Act) and Joint Decree of the Minister of Development the Minister of Finance No 58/2015 (IX.30) NFM on frameworks of the network access charging system and basic regulations of determination and implementation of access charges (hereinafter Charging Decree) has designated - as charging body as regards the network access charges to be applied by Infrastructure Managers to the open access railway network - the Rail Capacity Allocation Office: Institute for Transport Sciences (hereinafter referred to as "KTI").

KTI Hungarian Institute for Transport Sciences and Logistics Nonprofit Ltd. will cease to exist on 30 June 2025 pursuant to Government Decree No. 136/2025 (VI.13.). Its tasks will be taken over by the Institute for Transport Sciences under the supervision of the Ministry of Construction and Transport as of 1 July 2025.

The tasks of the rail capacity allocation office shall be performed - in compliance with the requirements of independence - by the Directorate of KTI designated for this purpose, the Rail Capacity Allocation Directorate (hereinafter referred as "VPE").

In accordance with provisions set out in § 17 (1) of the Charging Decree, the task of the Charging Body is to prepare the Charging Methodology (hereinafter CM III¹) as a methodological documentation of charging elements.

Charging Body shall determine the concrete charging elements for the given timetable year on the basis of the CM III, the fact data of the last closed business year of the Infrastructure Manager, other data sources set out in the CM III, as well as on the basis of the expected amount of contribution from the State, and shall lay down in the Charging Document (hereinafter CD) the detailed calculations for the determination of the charging elements and also data used for calculations.

We pointedly call your attention to the fact that in the course of calculating charges mentioned in the CD, we do not use rounding at all in order to achieve the possible most accurate calculations.

For transparency reasons, cost data demonstrated in the CD shall be rounded to thousand HUF without decimals; charging elements shall be given in HUF without decimals, percentages shall be demonstrated up to two decimals, taking into account the rules.²

Charging elements to be paid for the use of the open access railway network in Hungary shall be determined in integers, taking into account the rules of rounding and shall be published as it is stipulated in legal rules in force.

As a consequence of the above, when outlining the charging elements, after adding up of data contained by tables, a charge deviating in a slight degree from the amount to be paid may result. These differences come from the rounding of individual elements, they are not calculation mistakes.

¹By CM III at the present CD we mean Version 5 of CM III.

²Exceptions from this are data demonstrated at the correction index and resulting from other data sources (one decimal)

2 General provisions

2.1 TEMPORAL SCOPE OF CD

Infrastructure Manager of the railway network shall publish charging elements determined in the CD for the 2024/2025 timetable period in the Network Statement relevant to the given timetable year. The provisions of CD modification No. 4 shall be considered as follows:

- valid: 01 July 2025
- effective: 01 July 2025

2.2 OBJECTIVE SCOPE OF CD

Scope of this CD covers detailed calculations for the determination of charging elements that are to be paid for the use of the open access railway network in Hungary operated by GYSEV Zrt, and also includes data used as a basis of calculations.

2.3 BASIS OF MODIFICATION OF THE CD

2.3.1 Modification No. 1 of the CD

Until the date of publication Network Statement 2024/2025, the Infrastructure Manager did not send the notification, about the amount and use of state contribution.

On 05 March 2024 GYSEV Zrt. sent to VPE a letter No G-002787/2024, which contains the amount of state contribution of 2024/2025 timetable period. Accordingly, the cost base of the related network access charges could be reduced by HUF 11,4 billion.

2.3.2 Modification No. 2 of the CD

On 19 April 2024 GYSEV Zrt. sent to VPE a letter No G-005216/2024, in which it indicated that it became necessary to amend the network access charges announced by Modification No. 3 of the Network Statement of 2024/2025, as the Ministry of Construction and Transport amended the premises to be taken into account in the calculation of network access tariffs for the 2024/2025 scheduling year in registration number KÖFÁT/1082-5/2024/VIF. See section 3.8 for more details.

On this basis VPE carried out a review of network access charges.

2.3.3 Modification No. 3 of the CD

Pursuant to the order of the Company Registry of Budapest Capital Regional Court (Company registration number: 01-09-725271/226), KTI Hungarian Institute for Transport Sciences and Logistics Nonprofit Ltd. is the general legal successor of VPE Rail Capacity Allocation Nonprofit Ltd. from 1 October 2024. The tasks of the rail capacity allocation office shall be performed - in compliance with the requirements of independence - by the Directorate of KTI designated for this purpose, the Rail Capacity Allocation Directorate.

On this basis it became necessary to modify the relevant data of the entire document.

2.3.4 Modification No. 4 of the CD

KTI Hungarian Institute for Transport Sciences and Logistics Nonprofit Ltd. will cease to exist on 30 June 2025 pursuant to Government Decree No. 136/2025 (VI.13.). Its tasks will be taken over by the Institute for Transport Sciences under the supervision of the Ministry of Construction and Transport as of 1 July 2025.

On this basis it became necessary to modify the relevant data of the entire document.

3. Description of data used as a basis of CD

3.1 RESPONSIBILITY FOR PROVIDING DATA

The Infrastructure Manager is fully responsible for the accuracy of provided data and for the compliance of their content. VPE is responsible for the calculation of charging elements carried out on the basis of data provided by the Infrastructure Manager in compliance with methodology set out in CM III and in observance of legal rules in force.

3.2 COSTS

Justified revenues, costs and expenditures relating (hereinafter justified costs) to certain services shall be distinguished in compliance with CM III according to the direct, the direct distributable and the indirect cost units. In case of direct costs and direct costs to be distributed, there is now a more specific subdivision as you can see below.

Direct costs

Items that can unambiguously and directly be assigned to certain services can be labelled as direct costs, which have been divided into fixed and variable cost components in case of basic services, access part of supplementary services and access part of complex supplementary services.

Values of direct costs of the Infrastructure Manager for the 2024/2025. timetable year assigned to each service can be seen in Annex 1, furthermore, these values will also be demonstrated in the text of the CD among costs related to the relevant services.

Direct costs to be distributed

Direct dividable costs comprise items that can directly be connected to the provision of services of the Infrastructure Manager but that occur in common interest of several services and for this reason are to be shared to these services 'on an in-kind base'. Direct costs to be distributed are divided into fixed and variable cost components in case of basic services, access part of supplementary services and access part of complex supplementary services.

Values of direct costs to be distributed of the Infrastructure Manager for the 2024/2025. timetable year divided based on Annex 3 of CM III can be seen in Annex 1. Furthermore, they will also be demonstrated in the text among costs related to certain services.

Summing-up table of in-kind performances used for cost sharing can be seen in Annex 4.

Indirect costs

Indirect costs contain (indirect) items that occur at infrastructure managing organizations, and to be divided among all the services. Regarding indirect costs there is distinction made at the following elements: central and governance costs of the Infrastructure Manager; costs of services provided by other organisations of a non-independent railway company to the non-independent railway company, as well as governance and central revenues, costs and expenditures occurring at a non-independent railway company and burdening the Infrastructure Manager as well.

Values of indirect costs for the 2024/2025. timetable year assigned to services of the Infrastructure Manager can be seen in Annex 1; furthermore, they are also demonstrated in the text at costs linked to certain services.

The calculation of indirect costs assigned to certain services happens in proportion of direct costs and distributed direct costs.

Summing-up of costs for the 2024/2025. timetable period can be seen in the following tables.

Table 1 Distribution of costs of GYSEV Zrt to direct, direct distributable and indirect cost groups

	thousand HUF	%
Direct costs	19 143 403	72,30%
Direct costs to be distributed	3 858 447	14,57%
Indirect costs	3 476 948	13,13%
Total cost	26 478 797	100,00%

Basic service	thousand HUF	%
Variable costs	2 581 938	25,63%
Fixed costs	5 616 784	55,75%
Indirect costs	1 875 796	18,62%
Total cost	10 074 517	100,00%

Supplementary services	thousand HUF	%
Variable costs	1 119 307	11,99%
Fixed costs	2 067 883	22,16%
Supply part of costs	4 654 907	49,88%
Indirect costs	1 490 634	15,97%
Total cost	9 332 731	100,00%

Additional services	thousand HUF	%
Direct costs	6 477 980	100,00%
Direct costs to be distributed	0	0,00%
Indirect costs	0	0,00%
Total cost	6 477 980	100,00%

Ancillary services	thousand HUF	%
Direct costs	479 503	80,78%
Direct costs to be distributed	3 547	0,60%
Indirect costs	110 518	18,62%
Total cost	593 568	100,00%

Table 2 : Costs-distribution of GYSEV Zrt according to the types of services

	thousand HUF	%
Basic services	10 074 517	38,05%
Supplementary services	9 332 731	35,25%
Additional services	6 477 980	24,46%
Ancillary services	593 568	2,24%
Total cost	26 478 797	100,00%

3.3 BUSINESS PLAN

Some three years may go by between the basis period - i.e. the last closed business year which is the basis of justified costs that can be taken into account in charging - and the year of charge. Consequently, in the period between the basis period and the year of charge (partly based on facts, partly predictable) price-level changes and other considerable changes that influence the amount of charges shall be taken into account.

Under point 4.5 of the CM III, determination of values to be expected in the year of charge shall be carried out on the basis of values involved in the business plan of the Infrastructure Manager. GYSEV Zrt requested that plan figures defined in its business plan for 2025 should be the basis of the fee calculation. Business plan of GYSEV Zrt for 2025 can be found in Annex 2.

3.4 PERFORMANCE INDICATORS

As part of data supply, GYSEV Zrt has made values of performance indicators of the 2022. and the 2025. timetable year available.

Values of performance indicators of GYSEV Zrt for the 2022. and the 2025. timetable period can be seen in Annex 3.

3.5 'IN-KIND PERFORMANCES'

Based on performance indicators provided by the Infrastructure Manager it is necessary to create 'in-kind performances' that serve - when calculating - as a basis of distribution of direct distributable costs (costs which can directly be connected to the provision of services but occur in the common interest of several services of the Infrastructure Manager).

In order to distribute costs assigned to certain services in proportion to the chosen 'in-kind performance' it is required to introduce such a projection equivalent that occur at several services which can be measured in different natural measure units and is proportional to the amount of expenditures linked to the service.

CM III uses the number of use of track route as projection equivalent in case of access part of services. Specification of projection equivalents for GYSEV Zrt can be found in Annex 3/B of CM III.

Determination of values of in-kind performances for the 2025. timetable year were carried out in line with performance indicators set out in Annex 3/B of CM III.

Tables of in-kind performances contain the number of the use of track route related to distinct services. Values of in-kind performances of the Infrastructure Manager for the 2022. and for the 2025. timetable year can be found in Annex 4.

3.6 APPLIED MARK-UPS

In accordance with Article 67/B (2) of the Railway Act, charges to be paid for basic services and access to service facilities cannot exceed the costs directly incurred as a result of operating the train service.

In accordance with Paragraph 5 of the Charging Decree costs directly incurred as a result of operating the train service which are the basis of the charges to be paid for basic services and access to service facilities (access part of supplementary services and complex services containing such elements) cannot contain such costs which the infrastructure manager has to bear even in those cases if the services are not used by the applicants (fixed and indirect costs). In order that network access charges to be paid and to be accounted should cover the justified costs of the Infrastructure Managers, in compliance with Article 67/E (1) of Railway Act a general mark-up may be determined falling on these services.

In accordance with provisions of Article 9 (1) of the Charging Decree if the network access charges to be expected to be paid by applicants and to be accounted to them and the sum of the provided state contribution do not cover the entire amount of eligible costs of the Infrastructure Manager to be expected in connection with its activity, charging body shall charge mark-ups defined by Article 67/E (1) of Railway Act.

In accordance with § 9 (2) of the Charging Decree, prior to adding the mark-up to the charge, we have to analyse the market if there is a segment that cannot pay the network access charge increased with the mark-up paid for the basic services and access to service facilities.

In accordance with Article 67/E (2) of the Railway Act the segment analysis is needed because the volume of charges shall not exclude segments from the use of network that are able to pay the costs directly incurred as a result of operating the train service, plus a rate of return which the market can bear. Section 3.9 gives a more information about the segment analysis.

At individual charge items extension of the applied mark-up will be shown.

Values of mark-ups assigned to each service can be seen in Annex 5.

3.7 DISCOUNTS

Point 2.1.2.3. of CM III describes the discounts that can be provided by the Infrastructure Managers.

Discounts were not applied in the course of preparation of this CD.

3.8 AMOUNT OF STATE CONTRIBUTION

Based on the letter No. G-005216/2024 sent by GYSEV, the amount of state contribution that can be taken into account in the charging process is as follows:

- regarding basic services: HUF 6,013 bn
- regarding supplementary services: HUF 4,211 bn

Based on the referred letter, the amount to be paid has been established as follows:

- The mass amount of network access charges resulting from basic and supplementary services, taken without energy-type services of GYSEV Zrt. in timetable period 2024/2025 to be paid for the passenger and freight transport sector which determined to timetable period 2023/2024 which performance data in mind, if performance remains unchanged, the 2023 HCSO consumer price index should increase by 17.6%.
- Due to the effect of the state contribution network access charges for timetable period 2024/2025 should not be reduced for any service to timetable period 2023/2024 unless this is required by law, other regulatory documents or cost conditions.
- Ensuring of electric energy and fuel used for traction current should not receive financial support as well as ensuring of electric energy and fuel used for other than traction purposes.
- As in the case of timetable period 2023/2024, in order to meet the transport policy objectives related to competitiveness of railways, the state contribution in the amounts to be paid for the running of concerned freight trains (both train km and gross ton km proportionate part of the service) shall be lower than the amount paid by the freight sector other transport charges:
 - o those freight trains which run on international corridor route ('corridor freight trains') in accordance with Regulation 913/2010/EU.
- The effects of changes of station's category have been taken into account. Railway companies bear the benefits that result from the change of category due to changes in technical parameters.

3.9 SEGMENT ANALYSIS

Based on the Article 67/E (2) of the Railway Act, no market segment can be excluded from the railway infrastructure because of the volume of the network access charge set in the Network Statement as long as they can pay at least the direct costs incurred directly from providing the service and the rate of return that the market can bear.

The rate of return can be presented in the form of mark-up in the amount to be paid if the market segments can pay it based on the segment analysis.

In the segment analysis, have to be analysed in the Article 67/E (4) and the relevant ones among those included in Paragraph 9 Section (4) of the Charging Decree.

As part of the charging process related to the 2024/2025 timetable year, according to the Segmentation Analysis Methodology (Annex 9 of the CM), VPE conducted the segmentation analysis in accordance with the Annex of the Network Statement for relevant segments.

The basis for the analysis was provided by business and performance data for 2022. The result of the analysis is summarized in the following table.

Market segment	Result of the analysis
Combined transport	Due to the insufficient data provision the analysis could not to be carried out.
Direct trains	Due to the insufficient data provision the analysis could not to be carried out.
Block trains	The segment is not relevant for investigation, as its pair of segments is the individual car segment (Article 9 (4) of NFM decree 58/2015 (IX. 30.)). The single wagon load trains segment receives targeted state contribution during the period of the support program (2021-2025), as specified in Government Decision No. 1414/2020 (VII.16). During the period of the support program, it is not considered a relevant segment to be investigated.
Single wagon load trains	The segment is not relevant for investigation, the single wagon load trains segment receives targeted state contribution during the period of the support program (2021-2025), as specified in Government Decision No. 1414/2020 (VII.16). During the period of the support program, it is not considered a relevant segment to be investigated.
Public service passenger trains	Due to the insufficient data provision the analysis could not to be carried out.
Other passenger trains	Due to the insufficient data provision the analysis could not to be carried out.

3.10 MODE OF CALCULATION OF CHARGING ELEMENTS

Determination of charges relating to services in accordance with relevant provisions of CM III is as follows (based on this formula):

Basic services and access part of supplementary services:

$$\frac{\text{variable cost component of direct costs} + \text{variable cost component of direct costs to be distributed}}{\text{performance relating to the service}} = \text{charge}$$

Complex supplementary services:

$$\frac{\begin{aligned} &\text{variable cost component of direct costs related to access} \\ &\text{part of service} + \text{variable cost component of direct cost to be} \\ &\text{distributed related to access part of service} + \text{direct cost} \\ &\text{related to supply part of service} + \text{direct cost to be} \\ &\text{distributed related to supply part of service} + \text{indirect costs} \\ &\text{related supply part of service} \end{aligned}}{\text{performance relating to the service}} = \text{charge}$$

Supply part of supplementary service, additional and ancillary service:

$$\frac{\text{direct costs} + \text{direct costs to be distributed} + \text{indirect costs}}{\text{performance relating to the service}} = \text{charge}$$

In accordance with provisions of point 3.6, fixed costs and indirect costs falling on basic services and access part of supplementary service will be demonstrated as general mark-ups. Mark-ups will be calculated on the basis of the following formula:

Basic services and access part of supplementary services:

$$\frac{\text{fixed cost component of direct costs} + \text{fixed cost component of costs to be distributed} + \text{indirect costs}}{\text{performance relating to the service}} = \text{mark-up}$$

Complex supplementary services:

fixed cost component of direct costs related to access part of
service + fixed cost component of direct costs related to be
distributed related to access part of service + indirect costs of
access part of service

= mark-up

performance relating to the service

Determination of the state contribution decreasing the amount to be paid is based on this formula:

Volume of state contribution broken down to services

= state
contribution

performance of services

3.11 ETCS FEE

ETCS fee shall be determined apart from the other charging elements. Considering that the aim of the ETCS fee is that traction units should be equipped with ETCS devices, so determination of the fee has not been carried out on cost-base.

As part of the data provision for the 2024/2025 timetable period, the Infrastructure Manager has stated that compared to the data for the 2023/2024 timetable period the performance data that was taken into account in the calculation of the ETCS fee has not changed to such an extent that would affect the calculation of the ETCS fee.

The following ETCS fees shall be introduced for the 2024/2025 timetable period:

ETCS bonus fee: 20 HUF/train km

ETCS malus fee: 1 HUF/train km

Rules of use of ETCS fees can be found in Chapter 5.6.5. of the Network Statement.

4 Charging elements of services provided to Railway Undertakings by GYSEV Zrt

4.1 BASIC SERVICES

Costs taken into account when determining the charge

Table 3: Basic services - summing-up of costs

Costs in 2025 (thousand HUF)	Ensuring of train path	Gross ton proportionate part	Running of trains															Use of catenary
			Train km proportionate part															
			Passenger trains			Locomotive trains			Standard freight trains			Corridor freight trains						
			Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	
Variable cost component of direct costs	7 084	1 464 880	240 725	10 848	8 467	22 480	53	1	63 957	135	2	1 749	-	-	419 065			
Variable cost component of direct costs to be	-	198 156	97 630	268	-	7 572	-	-	18 434	5	-	427	-	-	-			
Fixed cost component of direct costs	63 759	1 028 691	1 911 938	72 812	57 018	183 190	493	8	301 650	700	15	8 249	-	-	616 997			
Fixed cost component of direct costs to be di	5 846	126 778	966 574	2 652	-	74 969	-	-	182 503	45	-	4 230	-	-	7 665			
Indirect costs	17 546	649 425	735 991	19 809	14 982	65 940	125	2	129 621	202	4	3 353	-	-	238 795			
Total cost	94 236	3 487 929	3 952 858	106 389	80 467	354 151	672	11	696 165	1 087	21	18 008	-	-	1 282 522			

Among the direct costs of train path insurance, the cost of VPE was determined individually. The cost of the VPE is shared between the two infrastructure managers in proportion to their direct costs, without taking into account the costs of energy-type services.

Outlook of VPE's 2025 business plan:

Revenue:	850 000 000
To be arranged in post-calculation:	- 53 102 936
Eligible revenue in 2025:	796 897 064
Operating expenses:	1 126 661 000
Budgetary support required:	294 941 000
In ensuring of train path service, the amount can be claimed from the railway market:	796 897 064
Out of this, the VPSZ commission fee for the GYSEV network:	23 906 912

Post-calculation in the 2024/2025 charging year:

OKSZ 2022 costs (not used for VPSZ purposes):	- 253 102 936
VPSZ 2023 commission fee legislative change:	200 000 000
Total to be arranged in post-calculation:	-53 102 936

Performance indicator relating to the charge

Table 4: Basic services - performance

Performance in 2025	Ensuring of train path	Ensuring of train path	Running of trains												Use of catenary
			Train km proportionate part												
			Passenger trains			Locomotive trains			Standard freight trains			Corridor freight trains			
			Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	
Ensuring of train path performance / train km	7 209 654														
Gross ton km performance / gross ton km		2 011 155 283

Use of catenary performance / electric train km															5 945 587

Determination of the amount to be paid

Table 5: Basic services - determination of the amount to be paid

2024/2025, (HUF)	Ensuring of train path	Gross ton proportionate part	Running of trains												Use of catenary
			Train km proportionate part												
			Passenger trains			Locomotive trains			Standard freight trains			Corridor freight trains			
			Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	Category I.	Category II.	Category III.	
1. Amount of charge of access part	1	0,84	60	54	43	95	40	26	96	115	50	87	-	-	70
2. Amount of mark-up	12	0,89	646	461	369	1 020	471	299	714	787	512	632	-	-	145
3. Amount of discount	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-
4. Amount of state contribution	0	1,40	341	186	159	750	182	72	341	550	328	339	-	-	112
Amount to be paid (1 + 2 - 3 - 4)	13*	0,33*	365*	329*	253*	365*	329*	253*	469*	352*	234*	380*	-	-	103*

*Valid: 20 August 2024

Amount to be paid for running of trains consists of two components: gross ton km proportionate and train km proportionate part. Amount to be paid for running of trains can be calculated with the use of the following formula:

Amount to be paid for running of trains = (amount to be paid of train km * train km) + (amount to be paid of gross ton km * gross ton * train km)

4.2 Supplementary Services

4.2.1 Use of stations

Costs taken into account when determining the charge

Table 6 : Use of stations by passenger trains for stopping - summing-up of costs

Costs in 2025 (thousand HUF)	Use of stations by passenger trains for stopping

4. Amount of state contribution					
Amount to be paid (1 + 2 - 3 - 4)	76,3	18,1	4,0	0,2	1,8

4.4 ANCILLARY SERVICES

Costs taken into account when determining the charge

Table 24 : Ancillary services - summing-up of costs

Costs in 2025 (thousand HUF)	Technical inspection of railway vehicles	Ticketing and reckoning activity
Direct cost	478 344	1 160
Direct costs to be distributed	3 539	9
Indirect cost	110 250	267
Total cost	592 133	1 435

Performance indicator relating to the charge

Table 25 : Ancillary services - performance

Performance in 2025	Technical inspection of railway vehicles	Ticketing and reckoning activity
Technical inspection of railway vehicles performance / train	40 742	
Ticketing and reckoning activity performance / ticket		6 000

Determination of the amount to be paid

Table 26 : Ancillary services - determination of the amount to be paid

2024/2025. (HUF)	Technical inspection of railway vehicles	Ticketing and reckoning activity
1. Amount of charge of supply part	14 534	239
2. Amount of mark-up		
3. Amount of discount		
4. Amount of state contribution		
Amount to be paid (1 + 2 - 3 - 4)	14 534	239

5 Annexes

- Annex 1: All direct costs, direct costs to be distributed and indirect costs of GYSEV Zrt for 2025 broken down to services
- Annex 2: Data from the updated business plan of GYSEV Zrt for 2022 and 2025
- Annex 3: Performance indicators of GYSEV Zrt for 2022 and 2025
- Annex 4: In-kind performances of GYSEV Zrt for 2022 and 2025
- Annex 5: Summing-up table of network access charges of GYSEV Zrt for 2024/2025
- Annex 6: Summing-up table of the state contribution in services for the timetable period 2024/2025 for GYSEV Zrt.
- Annex 7: Letters, regarding state contribution in timetable period 2024/2025
- Annex 8: Letters related to the modification, regarding the state contribution in timetable period 2024/2025

Annex 1: All direct costs, direct costs to be distributed and indirect costs of GYSEV Zrt for 2025 broken down to services

Services 2024/2025	Direct costs (thousand HUF)	Direct costs to be distributed (thousand HUF)	Indirect costs (thousand HUF)	Total costs (thousand HUF)
Ensuring of train path	70 843	5 846	17 546	94 236

Annex 4: In-kind performances of GYSEV Zrt for 2022 and 2025

Denomination of in-kind performances	2022	2024/2025
Number of use of track routes by departing trains	194 491	198 647
Number of use of track routes by through trains	1 820 194	1 802 098
Number of use of track routes by passenger trains, locomotive trains, standard freight trains	1 812 774	1 795 905
Passenger trains	1 355 080	1 418 909
track section category I	1 351 528	1 415 027
track section category II	3 552	3 882
track section category III	-	-
Locomotive trains	118 794	109 752
track section category I	118 794	109 752
track section category II	-	-
track section category III	-	-
Standard freight trains	338 900	267 244
track section category I	338 818	267 178
track section category II	82	66
track section category III	-	-
Special freight trains - Corridor freight trains	7 420	6 193
track section category I	7 420	6 193
track section category II	-	-
track section category III	-	-
Number of use of track routes by passenger trains for stopping	915 587	971 987
track section category I	262 408	293 501
track section category II	455 903	510 882
track section category III	100 524	152 243
track section category IV	96 752	15 362
Number of use of track routes by passenger trains for reversing direction	92 919	78 873
track section category I	92 805	78 831
track section category II	114	42
track section category III	-	-
track section category IV	-	-
Number of use of track routes by freight trains	137 214	119 369
track section category I	100 583	85 834
track section category II	36 575	33 421
track section category III	56	114
Number of use of track routes for access to refuelling facilities	8 290	8 070
Number of use of track routes for access to wagon weigh bridges	588	786
Number of use of track routes for storages of vehicles	589	682

Annex 5/a: Summing-up table of network access charges of GYSEV for the 2024/2025 timetable period (HUF)

Services	Charge of access part	Charge of supply part	Mark-up	Discount	State contribution	Amount to be paid
Ensuring of train path	1	-	12	-	0	13*
Running of trains						
Gross ton proportionate part	0,84	-	0,89	-	1,40	0,33*
Train km proportionate part						
Passenger trains

Tisztelt VPSZ szervezet vezető Úrhölgy!

Az Építési és Közlekedési Minisztérium jelen levélhez csatolt KÖFÁT/1082-1/2024/VIF iktatószámú ügyiratában felhatalmazta a GYSEV Zrt-t, mint a pályahálózat működtetésre kötött szerződés szolgáltatóját, hogy a költségterítés díjszámítás során figyelembe veendő részét meghatározza. A hivatkozott ügyiratban megfogalmazott elvek figyelembevételével a GYSEV Zrt. a 2024/2025 menetrendi időszakra az állami szerepvállalás mértékét 11 400 millió Ft-ban határozza meg.

A hálózat-hozzáférési díjak meghatározása során a csatolt adatszolgáltatást, az állami szerepvállalás mértékeként pedig lehetőség szerint az alábbi összegeket szíveskedjen figyelembe venni.

Szolgáltatás megnevezése			Állami szerepvállalás (Ft)
Menetvonal biztosítás			14 930 300
Közlekedtetés - Bruttótonna kilométer alapú rész			2 925 810 000
Közlekedtetés - Vonatkilométer alapú rész	Személyvonat	I. kategória	2 216 500 000
		II. kategória	48 566 000
		III. kategória	38 500 000
	Mozdonyvonat	I. kategória	255 670 000
		II. kategória	304 000
		III. kategória	3 800
	Általános tehervonat	I. kategória	353 550 000
		II. kategória	726 650
		III. kategória	13 725
	Korridor tehervonat	I. kategória	9 915 000
		II. kategória	0
		III. kategória	0

Kövesdi Szilárd István vezérigazgató úr
részére

GYSEV Győr-Sopron-Ebenfurti Vasút Zrt.

Sopron
Mátyás király utca 19.
9400

KÖFÁT/1082-1/2024/VIF

Tisztelt Vezérigazgató Úr!

A Győr-Sopron-Ebenfurti Vasút Zrt. (továbbiakban GYSEV Zrt.) és a Magyar Állam között 2015. december 21-én létrejött, a vasúti pályahálózat működtetésre kötött 001267/2015 számú szerződés keretein belül a 2024/2025-ös menetrendi időszakra vonatkozóan az állami költségtérítés értékét 14 633 millió Ft-ban állapítom meg.

A fenti teljes költségtérítés csak a díjszámításnál alapul vett üzleti terv szerinti eredménykimutatásban feltüntetett indokolt költségek és ráfordítások mértékében vehető figyelembe a díjszámítás során. A költségtérítés fennmaradó részét a szinten tartó felújítási és beruházási munkák finanszírozására kell fordítani.

A fenti teljes költségtérítés díjszámítás során figyelembe veendő részének a 2022. évi tényadatok, a díjszámítás alapjául szolgáló 2025. évi üzleti terv szerinti eredménykimutatás és az alábbiakban meghatározott szempontok alapján történő meghatározására a GYSEV Zrt-t, mint a pályahálózat működtetésre kötött szerződés szolgáltatóját hatalmazom fel.

Kérem, hogy a hálózat-hozzáférési díjkalkuláció során a következőket szíveskedjék figyelembe venni:

- A GYSEV Zrt. 2024/2025. évi energia nélkül vett alap- és járulékos szolgáltatásaiból származó bevétel értéke mind a személy-, mind az áru fuvarozási szektor vonatkozásában a 2023/2024. menetrendi évre vonatkozó

díjképzés során meghatározott fizetendő díjtömeggel egyezzen meg változatlan teljesítmény mellett (az esetleges csökkenő teljesítményváltozás egységárváltozással kompenzálható);

- Az állami költségtérítés hatásából adódóan a 2023/2024-es menetrendi időszakhoz képest a 2024/2025. évi fizetendő összegek ne csökkenjenek, kivéve, ha ez jogszabályból vagy e dokumentum előírásaiból, illetve a költségviszonyokból következik.
- A vontatási és nem vontatási célú villamos energia, illetve a vontatási és a nem vontatási célú üzemanyag biztosítása szolgáltatások ne részesüljenek támogatásban.
- A 2023/2024. menetrendi időszakhoz hasonlóan a vasút versenyképességével összefüggő közlekedéspolitikai célok érvényesítése érdekében az állami szerepvállalás felosztása során a 913/2010/EU rendelet szerinti korridorokon közlekedő, korridor vonatnemenben közlekedő tehervonatok („korridor vonatok”) közlekedtetéséért fizetendő összegét csökkentsék úgy, hogy az áru fuvarozási szektor által fizetendő alap- és járulékos szolgáltatásokból származó összesített bevétel az áru fuvarozási szolgáltatások indexálása szerint változzon.
- Az állomás átkategorizálásokról adódó változások várható hatásait is kérem figyelembe venni az adatszolgáltatás során. A műszaki paraméterek változásából adódó átkategorizálások terheit, illetve előnyeit a vállalkozó vasúti társaságok viseljék.

Kérem, hogy a fentieknek megfelelően szíveskedjék a költségtérítés felosztását elvégezni és a díjkalkulációt végző vasúti pályakapacitás-elosztó szervezetet tájékoztatni a kalkulációt megalapozó adatszolgáltatás során.

Budapest, 2024. január 11.

Tisztelt VPSZ szervezet vezető Úrhölgy!

Az Építési és Közlekedési Minisztérium jelen levélhez csatolt KÖFÁT/1082-5/2024/VIF iktatószámú ügyiratában módosította a 2024/2025 évi menetrendi évre vonatkozó hálózathozzáférfési díjkalkulációban az állami szerepvállalás felosztásánál figyelembe veendő premisszákat, emiatt szükségessé vált a 2024/2025 évi Hálózati Üzletszabályzat 3. sz. módosításával meghirdetett hálózathozzáférfési díjak módosítása. A Díjszámítási Dokumentum felülvizsgálata során az állami szerepvállalás mértékeként lehetőség szerint az alábbi összegeket, egyéb adatok (költségek, teljesítmények, naturáliák) tekintetében a mellékelt (a 2024. február 24-i adatszolgáltatásunkkal megegyező tartalmú) adatszolgáltatási táblát szíveskedjenek figyelembe venni.

Szolgáltatás megnevezése			Állami szerepvállalás (Ft)
Menetvonal biztosítás			971 000
Közlekedtetés - Bruttótonna kilométer alapú rész			2 824 600 000
Közlekedtetés - Vonatkilométer alapú rész	Személyvonat	I. kategória	1 910 024 830
		II. kategória	38 385 000

KÖFÁT/1082-5/2024/VIF

Tisztelt Vezérigazgató Úr!

Tájékoztatom, hogy a 2022. december 21-én kelt VIF/2589/2022-ÉKM számú levélben illetve a 2024. január 11-én kelt KÖFÁT/1082-1/2024/VIF számú levélben foglalt premisszákat az alábbiak szerint módosítom.

A 2024/2025. menetrendi évre vonatkozó hálózat-hozzáférési díjkalkulációs folyamat során a következőket szíveskedjék figyelembe venni:

- A GYSEV Zrt. 2024/2025. évi energia típusú szolgáltatások nélkül vett alap- és járulékos szolgáltatásaiból származó hálózat hozzáférési díj bevétel értéke a személyszállítási, illetve az áru fuvarozási szegmens vonatkozásában a 2023/2024. menetrendi évre vonatkozó díjképzés során meghatározott teljesítményadatok figyelembe vételével, változatlan teljesítmény esetén a 2023. évi KSH fogyasztóiár-index mértékével, azaz 17,6%-kal növekedjen.
- Az állami költségtérítés hatásából adódóan a 2023/2024-es menetrendi évhez képest a 2024/2025. évi fizetendő összegek egyetlen szolgáltatás esetén se csökkenjenek, kivéve, ha ez jogszabályból vagy egyéb szabályozó dokumentum előírásaiból, illetve a költségviszonyokból következik.
- A vontatási és nem vontatási célú villamos energia, illetve a vontatási és a nem vontatási célú üzemanyag biztosítása szolgáltatások ne részesüljenek támogatásban.

- A 2023/2024. menetrendi évhez hasonlóan a vasút versenyképességével összefüggő közlekedéspolitikai célok érvényesítése érdekében az állami szerepvállalás felosztása során az alábbi érintett tehervonatok közlekedtetéséért (mind vonatkm, mind bruttótonnakm arányos rész) fizetendő összege legyen alacsonyabb, mint az áru fuvarozási szektor által fizetett egyéb közlekedtetési díj:
 - o a 913/2010/EU rendelet szerinti korridorokon közlekedő, korridor vonatnemben közlekedő tehervonatok („korridor vonatok”).
- Az állomás átkategorizálásból adódó változások várható hatásait is kérem figyelembe venni. A műszaki paraméterek változásából adódó átkategorizálások terheit a vállalkozó vasúti társaságok viseljék.

A 2023/2024. menetrendi évre vonatkozóan meghirdetett hálózat-hozzáférési díjak esetén kérem, hogy kezdeményezze a díjfelülvizsgálatot a hálózat hozzáférési díjakban bevonásra került és meghirdetett állami szerepvállalás átcsoportosítása érdekében, és a hálózat-hozzáférési díjak felülvizsgálatára vonatkozó jogszabályból eredő határidőket, valamint a szükséges díjkalkulációs folyamatot is figyelembe véve, az igénybe vehető szolgáltatások után fizetendő összegeket az alábbiak figyelembe vételével módosítsa:

1. A makrogazdasági környezetben bekövetkező negatív irányú változások, valamint az egyre nagyobb ütemben romló pályaalapokat is figyelembe véve, a GYSEV Zrt. részére a 2023/2024. menetrendi időszak díjképzési évében megállapított állami költségterítés összegének változatlanul hagyása mellett szükségessé válik a 2024. évi felújítási költségterítés arányának növelése, ezért a hálózat hozzáférési díjakba bevonásra került állami szerepvállalás mértékének csökkentéséről intézkedjen az alábbiak szerint:
 - 1.1. A 2023/2024. menetrendi évben az energia típusú szolgáltatásokon kívüli alap- és járulékos szolgáltatások vonatkozásában valamennyi, a Hálózati Üzletszabályzatban meghirdetett és érintett szolgáltatás után fizetendő összeg a 2022. évi KSH fogyasztóiár-index mértékével megegyezően, azaz 14,5%-kal emelkedjen a hatályos, jelen pontban érintett szolgáltatások után fizetendő összegekhez képest.
 - 1.2. Az érintett szolgáltatásra a díjképzés során ráosztott állami szerepvállalás mértékét ennek érdekében csökkenteni szükséges, melyet – az összeg nagyságrendjére is tekintettel – jelentős mértékűnek szükséges minősíteni és így az kötelező díjfelülvizsgálatot fog eredményezni.
 - 1.3. Az 1.1 pontban meghatározott díjteher emelkedésből származó többlet díjbevitel biztosítja a GYSEV Zrt. költségeinek ellentételezését, mellyel a pályaműködtetői szerződés szerint köteles elszámolni.

Kérem, hogy a fentieknek megfelelően szíveskedjék a költségtérítés felosztását elvégezni és a díjkalkulációt végző vasúti pályakapacitás-elosztó szervezetet tájékoztatni a kalkulációt megalapozó adatszolgáltatás során.

Budapest, 2024. április 16. „

Tisztelettel:

Nagy Bálint
